

Top Manufactures of ion exchange Resins

WWW.BLUEMAARLIN.COM

WORLD WIDE

Dow Chemical Company:

Global Powerhouse: The Dow Chemical Company is a behemoth in the chemical industry, including the manufacturing of ion exchange resins. With a strong global presence, Dow is recognized for its diverse portfolio of high-quality resins catering to applications such as water treatment, industrial processes, and pharmaceuticals.

Lanxess AG:

German Excellence: Lanxess AG, a German specialty chemicals company, has carved a niche in ion exchange resin production. Renowned for its commitment to research and development, Lanxess continuously introduces innovative resin technologies that address the evolving needs of industries worldwide.

ResinTech Inc.:

Specialized Solutions: ResinTech Inc. is a leading player in the ion exchange resin market, offering specialized solutions for water treatment, food and beverage, pharmaceuticals, and more. The company is recognized for its commitment to product quality and customer satisfaction.

Thermax Limited:

Indian Prowess: Thermax Limited, based in India, is a notable player in the ion exchange resin industry. The company provides a comprehensive range of resins for water and wastewater treatment, leveraging its expertise in chemical and environmental solutions.

Samyang Corporation:

Asian Innovation: South Korea's Samyang Corporation is a key contributor to the global ion exchange resin market. Known for its innovative approach, Samyang produces resins that find

applications in diverse industries, contributing to the advancement of industrial processes.

Purolite Corporation:

Industry Experience: Purolite is a global company specializing in the production of ion exchange resins and adsorbent solutions.

Application Areas: The company serves various industries, including water treatment, pharmaceuticals, biotechnology, and food and beverage, offering a comprehensive range of ion exchange products.

MANUFACTURES IN INDIA

Ion Exchange India Limited:

- **Pioneering Solutions:** Ion Exchange India Limited is a stalwart in the Indian ion exchange resin market. With decades of experience, the company offers a diverse range of resin solutions for water treatment, industrial processes, and specialty applications. Ion Exchange India Limited has played a pivotal role in addressing the country's water purification needs.

Thermax Limited:

- **Integrated Expertise:** Thermax Limited, a prominent Indian company, is not only recognized for its prowess in energy and environmental solutions but also for its contributions to the ion exchange resin sector. The company provides comprehensive resin solutions for water and wastewater treatment, showcasing its commitment to sustainable practices.

Suqing Group:

- **Global Reach, Local Presence:** Suqing Group is a noteworthy player in the Indian ion exchange resin market, offering a range of products for diverse industrial applications. With a global presence, Suqing brings international standards to the Indian market, contributing to the nation's industrial growth.

Aldex Chemical Company Limited:

- **Innovative Approach:** Aldex Chemical Company Limited is known for its innovative approach to ion exchange resin manufacturing. The company caters to the Indian market with a focus on providing high-quality resins for water treatment, ensuring the availability of clean and purified water across various sectors.
